Surgical Light

AIM-200 OR

The right light for surgical procedures.

Burton's AIM-200 OR provides versatility, amazing illumination, and ease of use. The rotating center handle makes adjusting the light size and pattern to fit the working area quick and convenient. This light's superior arm mechanism is easy to position and will not drift. The AIM-200 OR is available with a floor, wall, single-, or double-ceiling mount which makes it a practical choice for hospitals, ambulatory surgery centers and veterinarian offices.

Unlimited Rotation and Maximum Reach

The AIM-200 OR's 360° limitless arm-and-mounting-system-rotation around vertical axes on single ceiling models is a key feature previously available only on more expensive OR lights. The arm system also provides a maximum reach of 63" (160 cm) and diameter of 10' (305 cm), allowing it to illuminate the patient from head to toe with no drift.
