

SOFIA 2

Sofia[®] 2

Fluorescent Immunoassay Analyzer

Sofia 2 is a small bench top analyzer that uses advanced fluorescence detection with an ultraviolet LED energy source. Sofia 2 collects hundreds of data points on the test strip contained inside of a Sofia FIA Test Cassette. Sofia 2 uses proprietary algorithms to analyze the data, interpret the signals and determine the results automatically to give you an objective result you can rely on.

Sofia 2 offers an easy-to-use interface, customizable settings, flexible workflow, barcode technology and Virena[®] connectivity. Results are reported automatically on the screen and can be stored in Sofia 2, optionally printed on an external printer, or sent to Virena.

Sofia 2 has two modes that can be used depending on your workflow requirements.

WALK AWAY mode may be most convenient for reading a single patient sample. In this mode, Advance Result Technology (ART) can provide results in as few as 3 minutes. The patient sample is dispensed into the Test Cassette and the Test Cassette is immediately placed in Sofia 2. Sofia 2 will automatically develop the Test Cassette for the required time period (pre-programmed for each test), scan the Test Cassette periodically, and display the test result.

READ NOW mode may be most convenient for reading several patient samples. In this mode, the patient sample is dispensed into the Test Cassette. The user then manually times the development period outside of Sofia 2. This can be done on the counter or bench top using a timer. Once the development time is complete, the Test Cassette is placed in Sofia 2 where it is immediately scanned and the test result is displayed within one (1) minute.

Buy a Box of Flu Tests, Get Sofia 2 Analyzer FREE

Box of 25 Flu Tests

Flu Test Item Code: QUI20218

Influenza testing within the first 48 hours of symptoms are the most critical. Taking antivirals within the first 48 hours can help shorten the length of the flu by 30%.*

Test Type	Description	CPT Code	Medicare 2019 Allowable Amount
Sofia Influenza A+B FIA	Influenza		
<i>If practitioner orders results for both A and B:</i>	<i>Influenza A</i>	87804QW	\$16.55
	<i>Influenza B</i>	87804QW, 59	\$16.55
Sofia hCG FIA	Pregnancy, Urine	84703	\$8.36
Sofia Lyme FIA	Lyme, IgM	86618	\$18.92
	IgG	86618,59	\$18.92
Sofia 2 Lyme FIA	IgM	86618QW	\$18.92
	IgG	86618QW, 59	\$18.92
Sofia RSV FIA	RSV	87807, 87807QW	\$13.32
Sofia Strep A FIA	Strep A	87880	\$16.53
Sofia Strep A+ FIA		87880QW	\$16.53

The ART of Flu Testing

Accurate, objective and automated results in **as few as 3 minutes**

Secure, remote instrument management through the Virena ecosystem

Excellent performance compared to molecular and viral culture methods

Integrated data management automatically stores test and user history

Flexible, dual mode testing and simple, CLIA-waived procedures for a variety of laboratory environments

User and patient ID captured with **onboard barcode scanner**

Diagnosing and treating influenza quickly, preferably within the first 48 hours, can shorten the duration of flu symptoms.
